## **About the program**

The Joint Fuel Management Program (JFMP) encompasses fuel management activities planned to be delivered by Country Fire Authority (CFA) and Forest Fire Management Victoria (FFMVic) across the coming three years in the Gippsland FFMVic Region and South East CFA Region as depicted in **Map 1** below.

Each activity is led by either CFA or FFMVic and delivered with the support of partner agencies including the Department of Transport and Planning (DTP), Emergency Management Victoria (EMV), Traditional Owners, and local businesses.

The JFMP is prepared and implemented in accordance with the *Code of Practice for Bushfire Management on Public Land 2012 (amended 2022) (paragraphs 69 to 72), Safer Together: A new approach to reducing the risk of bushfire in Victoria,* the Gippsland Regional Bushfire Management Strategy, and relevant CFA and FFMVic guidelines and procedures.

The Joint Fuel Management Program web page contains a live interactive map showing CFA and FFMVic planned burns and other fuel management activities for 2025-2026 to 2027-2028. The JFMP does not include burns managed by private landholders or industry. The JFMP webpage can be accessed via https://www.ffm.vic.gov.au/jfmp.

It is important to note that the ability to carry out planned activities is dependent on seasonal and local weather conditions. To allow for this, planned burns from the second and third years of the program may be brought forward to the current year to replace a burn planned for the first year. Burns on public land associated with forest coupe regeneration as well as small heap burns are not included in the JFMP.

This document contains details about the following planned activities:

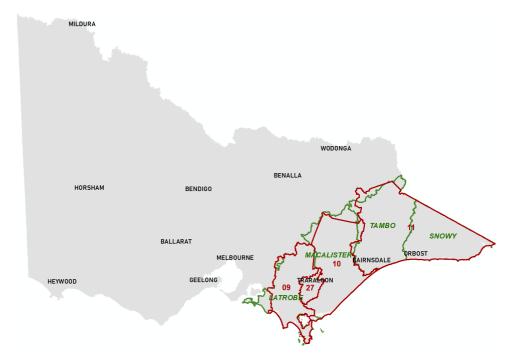

**Planned Burns** - fuel reduction, ecological and other planned burns by indicative year for the three-year period of 2025/2026 – 2027/2028.

**Non-Burn Fuel Treatments (NBFT)** - used to manage bushfire fuels through activities other than planned burning. Examples include mowing, slashing, mulching, spraying, rolling, and grazing.

**Strategic Fuel Breaks** - a strip of land where vegetation has been modified to form a safe and effective platform for fighting and controlling bushfires. They can also assist in the safe delivery of planned burns.

**Cultural burning** – planned burns led by Traditional Owners for a range of land management and cultural outcomes. They are supported by the fire agencies, and while they may have risk reduction benefits this is not generally the primary purpose.

Map 1: FFMVic and CFA Districts included in the Gippsland Joint Fuel Management Program

## 2025/2026 - 2027/2028 JFMP

The following tables summarise the works planned in the JFMP. A detailed schedule of planned burns and non-burning fuel treatments is provided in Appendix 1 and 2.

Table 1 – Planned Burns: number and area by CFA and FFMVic Districts for Gippsland

## **Strategic Fuel Breaks**

Strategic Fuel Breaks can be one of two types:

Landscape protection breaks (LPB): Located in the forest to divide the landscape into units/areas suitable to help to reduce the fire to the smallest size possible. These breaks provide a platform for fighting fires in the forest and may also reduce fire impacts on nearby communities.

**Asset protection breaks (APB):** Designed to provide direct protections of communities and assets from the direct impacts of fire. These breaks are generally located adjacent to townships and assets.

The following strategic fuel breaks are proposed for construction (new) or renewal (upgrading of an existing break to meet standards) during 2025/2026.

Table 3 – Strategic Fuel Breaks planned for delivery by FFMVic in Gippsland

SFB Name	SFB Number	Break Type	Work Type	Distance (km)
PRIORITY SFB FOR DELIVERY IN 2025/26				
Bemm River – SFB – Sydenham inlet Rd	GP-SNO-CAN-0179	LPB	NEW	18.2
Moondarra Reservoir – SFB – W18	GP-LTB-ERI-0179	LPB	NEW	5.3
Moondarra Reservoir – SFB – Moondarra Reservoir Road	GP-LTB-ERI-0180	LPB	NEW/	6.2
			RENEWAL

Tanjil South – SFB – S6 B6 Track	GP-LTB-ERI-0181	LPB	NEW	10.9
Toongabbie – SFB – Cowwarr Road	GP-LTB-ERI-0178	LPB	NEW	23.1

## **Cultural Burning**

Cultural fire is fire deliberately put into the landscape lead by the Traditional Owners of that Country for a variety of purposes, including ceremony, protection of cultural and natural assets, fuel reduction, regeneration and management of food, fibre and medicines, flora regeneration, fauna habitat protection and healing Country's spirit.

We are guided by the <u>Victorian Traditional Owner Cultural Fire Strategy</u> which provides policy direction and a framework for fire and land management agencies to better enable Traditional Owners to undertake cultural burning for these cultural objectives.

There are six principles underpinning this strategy:

- cultural burning is right fire, right time, right way and for the right cultural reasons, according to lore
- burning is a cultural responsibility
- cultural fire is living knowledge
- monitoring, evaluation and research support cultural fire objectives and enable adaptive learning
- Country is managed holistically
- Cultural fire is healing.

FFMVic and CFA recognise that cultural burning can assist landholders and communities in the use of fire to care for Country. The sharing of knowledge by our local Traditional Owners as well as from indigenous peoples from other parts of Australia will assist in improving our adaptive fire management practices in Victoria. This builds on supporting community through learning about how we live with fire. Working together to foster knowledge sharing is an important way to enable participation of Aboriginal communities.

Across the Gippsland Region, FFMVic and CFA are actively working together with Traditional Owner groups, guided by the direction they want to take and specific to the needs and wishes of the group. We continue to build on the strong working relationships that are recognized whilst being open to establishing new ones. Gunaikurnai Land and Waters Aboriginal Corporation (GLaWAC) and Snowy Cann Rivers First People's Country and Waters Aboriginal Corporation have nominated some burns that will be delivered with support from FFMVic and CFA.

While partnering with GLaWAC we have established the Gunaikurnai Operational Fire Partnerships Management Group, in which an engagement approach between the department and GLaWAC has been endorsed. Through this, for Gunaikurnai Country three types of burns have been identified:

**FFMVic Planned burns**: are FFMVic lead and GLaWAC is invited to support. GLaWAC is engaged as part of the JFMP and values checking process.

**Partnership burns**: meet both FFMVic/Gunaikurnai interests and objectives. This collaborative approach is led by either FFMVic or GLaWAC, supported by the other.

**Gunaikurnai burns**: are nominated, planned, lead and delivered by Gunaikurnai.

### **Approval**

The 2025/2026 – 2027/2028 Joint Fuel Management Program is approved by:

FFMVic Deputy Chief Fire Officer, Sam Quigley, Gippsland Region

CFA Deputy Chief Officer, Trevor Owen, South East Region

Noting for on-ground ignition and delivery of cross tenure and private property burns, FFMVic and CFA agency responsibilities remain unchanged.

## How to get involved

FFMVic and CFA welcome comment on strategic and operational fire management all year round. Due to the planning cycle your comments relating to certain aspects of the program may not be included until the following year's JFMP.

Comments and suggestions relating to the JFMP can be sent to:

Manager, Operational Fire Planning
Dept. of Energy, Environment and Climate Action
Gippsland
Level 3, 8-12 Seymour Street
Traralgon, 3844
gippsland.plannedburning@deeca.vic.gov.au

Manager Community Safety South East Region Country Fire Authority Level 2, 45 Assembly Drive Dandenong South 3175 ser.vegetation@cfa.vic.gov.au

Planned Burns Victoria (PBV) is an easy-to-use, opt-in system customisable to suit your notification needs. PBV provides an overview of all planned burns on this JFMP and allows individuals to sign up to receive notification of when a burn is scheduled and ignited.

You can find out more about our fuel management programs and subscribe to notifications at https://plannedburns.ffm.vic.gov.au/

## **Appendix 1: FFMVic Schedules of Activities**

These schedules contain the details of FFMVic-led fuel management activities. Please note that the planned burn year and season identified for each planned burn is indicative only and may be changed due to weather conditions and operational requirements.

Abbreviations may be used in the following Schedules:

'\*' asterisk on burn name denotes a cross tenure burn; PV – Parks Victoria; COM – Committee of Management; DEECA - Department of Energy, Environment and Climate Action; PP – Private Property; FRB – Fuel Reduction Burn; ECO – Ecological burn; TO – Traditional Owner; FMZ – Fire Management Zone; APZ – Asset Protection Zone; BMZ – Bushfire Moderation Zone; LMZ – Landscape Management Zone; PBEZ – Planned Burn Exclusion Zone; NZ – Not Zoned; EVD – Ecological Vegetation Division.

## **Appendix 2: CFA Schedules of Activities**

These schedules contain the details of CFA-led planned burning activities. Please note that the planned burn year and season identified for each planned burn is indicative only and may be changed due to weather conditions and operational requirements.

The following abbreviations may be used: '\*' asterisk on burn name denotes a cross-tenure burn; COM – Committee of Management; PP – Private Property; FRB – Fuel Reduction Burn; ECO – Ecological burn; TO – Traditional Owner.

#### SCHEDULE 1: CFA LEAD DISTRICT 09 - PLANNED BURNING

CFA Lead District 09 Planned Burns 2025/2026

Local Government Area	Burn Number	Burn Name	Burn Type	Land Management Objective	Planned Burn Size (ha)	New Burn
South Gippsland Shire	D09-25-004	Mirboo North - Jepson Court	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including Mirboo North Township.	0.4	Yes
South Gippsland Shire	D09-25-001	Koonwarra - Koonwarra Fauna Reserve	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including Koonwarra Township.	0.53	Yes
South Gippsland Shire	D09-23-003	Nerrena - Nerrena Rd	FUEL REDUCTION	To develop fuel reduced areas of sufficient width and continuity to reduce the speed and intensity of bushfires.	3.58	

### CFA Lead District 09 Planned Burns 2026/2027

Local Government Area	Burn Number	Burn Name	Burn Type	Land Management Objective	Planned Burn Size (ha)	New Burn
SOUTH GIPPSLAND SHIRE	D09-25-003	Koonwarra - Koonwarra Fauna Reserve 3	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including Koonwarra Township.	1.7	Yes
BASS COAST SHIRE	D09-24-003	Inverloch - RACV Resort	FUEL REDUCTION	To develop fuel reduced areas of sufficient width and continuity to reduce the speed and intensity of bushfires.	9.96	
BAW BAW SHIRE	D09-24-002	Neerim South - Shirley Rd	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including Adjoining housing estate.	0.45	
BAW BAW SHIRE	D09-23-008	Rawson - Tyers-Walhalla Road	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including Rawson, adjacent homes and the Tyers Walhalla road.	0.83	
SOUTH GIPPSLAND SHIRE	D09-23-004	Yanakie - Boat House	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including Herritage Boat Houses.	1.29	
BAW BAW SHIRE	D09-23-002	Drouin - Roberts Court	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including Industrial Estate and residential homes.	4.82	
BAW BAW SHIRE	D09-20-001	Rawson - 180 Knotts Siding Road	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including adjacent homes and the Rawson Township.	0.95	
BAW BAW SHIRE	D09-19-005	Rawson - Knotts Siding	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including adjacent homes, Rawson township DELWP facility.	2.46	
SOUTH GIPPSLAND SHIRE	D09-19-004	Koonwarra - Koonwarra Reserve 5	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including adjacent homes.	1.65	

### CFA Lead District 09 Planned Burns 2027/2028

Local Government Area	Burn Number	Burn Name	Burn Type	Land Management Objective	Planned Burn Size (ha)	New Burn
SOUTH GIPPSLAND SHIRE	D09-25-007	Koonwarra - Koonwarra Fauna reserve 4	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including Koonwarra Township.	1.01	Yes
BAW BAW SHIRE	D09-25-006	Noojee - Ridge rd	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including Noojee Township.	3.95	Yes
SOUTH GIPPSLAND SHIRE	D09-25-002	Koonwarra - rail Trail	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including Koonwarra Township.	2.81	Yes
SOUTH GIPPSLAND SHIRE	D09-23-007	Fish Creek - Mathers Road	FUEL REDUCTION	To develop fuel reduced areas of sufficient width and continuity to reduce the speed and intensity of bushfires.	0.64	
SOUTH GIPPSLAND SHIRE	D09-20-004	Koonwarra - Koonwarra Reserve Gravel Pit 2	FUEL REDUCTION	To provide the highest level of localised protection to human life, property and community assets identified as highly valued including adjacent community and industrial infrastructure.	1.9	

# SCHEDULE 2: CFA LEAD DISTRICT 27 - PLANNED BURNING

#### CFA Lead District 27 Planned Burns 2025/2026

Local Government Area	Burn Number	Burn Name	Burn Type	Land Management Objective	Planned Burn Size (ha)	New Burn
LATROBE CITY		Traralgon - Scrubby Lane 3	FUEL	To provide the highest level of localised protection to human life,	1.6	Yes
	D27-25-009		REDUCTION	property and community assets identified as highly valued including.		
LATROBE CITY		Traralgon - Scrubby Lane 2	FUEL	To provide the highest level of localised protection to human life,	1.88	
	D27-25-008		REDUCTION	property and community assets identified as highly valued including.		Yes
				To provide the highest level of localised protection to human life,		
LATROBE CITY		Traralgon - Scrubby Lane	FUEL	property and community assets identified as highly valued including	0.57	
	D27-25-007		REDUCTION	HVP Plantation and residential Housing.		Yes
